Wildlife Board Motions

Following is a summary of Wildlife Board motions directing the Division to take action and the response to date:

Fall 2023 – Target Date – Special Use Permits on WMA’s – Guides and Outfitters – Non-consumptive user fee

MOTION: I move that we ask the division to look into Guides and Outfitters obtaining special use permits on WMA’s and to look at implementing a fee for non-consumptive users. This is to be placed on the Action Log.

Motion made by: Randy Dearth
Assigned to: Blair Stringham
Action: Under Study
Placed on Action Log: August 25, 2022

Fall 2024 – Target Date – Increase Trapping Fee for Non-residents

MOTION: I move that we ask the Division to look into a trap fee increase for non-residents for 2024. This is to be placed on the Action Log.

Motion made by: Karl Hirst
Assigned to: Darren DeBloois
Action: Under Study
Placed on Action Log: January 3, 2023

Fall 2024 – Target Date – Mandatory Tooth Reporting

MOTION: I move that we ask the Division to look into mandatory tooth reporting. This is to be placed on the Action Log.

Motion made by: Karl Hirst
Assigned to: Dax Mangus
Action: Under study
Placed on Action Log: May 4, 2023

Fall 2024 – Target Date – CWMU Recommendations Committee

MOTION: I move that we ask the division to form a CWMU Recommendations Committee to review the rule and bring recommendations back to the board in June 2024. The committee should consider if the rule is equitable for both the public and the private parties. It needs to be an incentive based program to encourage CWMU’s to fulfill antlerless harvest. Tools need to be in place to encourage CWMU operators and the division to obtain necessary harvest for unit objectives. The rule needs to address non-contiguous lands and set requirements for trade lands – land traded needs to be comparable to be fair to both the public and the operator. Trade lands need to be posted with a common sign such that the public can easily recognize it as such. If public tags increase or decrease then CWMU tags should do the same. This is to be placed on the Action Log.

Motion made by: Randy Dearth
Assigned to: Chad Wilson
Action: Under study
Placed on Action Log: May 4, 2023

Fall 2025 – Target Date – “Destination Water bodies” List

MOTION: I move that we ask the Division to create a list of “Destination water bodies” throughout the state. This list will determine which fishery management plans are presented statewide and which may be presented to only the local RAC. This is to be placed on the action log.

Motion made by: Kent Johnson

Assigned to: Randy Oplinger

Action: Under study

Placed on Action Log: September 21, 2023

MEMORANDUM

TO: Utah Wildlife Board

FROM: Dax Mangus, Big Game Coordinator

DATE: November 16, 2023

SUBJECT: West Desert, Deep Creek bull elk hunting.

The DWR is requesting an extension to the timeline for the transition of the West Desert, Deep Creek unit to a general season, Any Bull unit.

The West Desert, Deep Creek unit is currently managed as a limited entry unit for bull elk and managed under the September archery and HAMSS hunting strategy. During the statewide elk plan revision in the fall of 2022, the DWR recommended converting this unit to a general season Any Bull hunting strategy. A substantial portion of the elk habitat on the Deep Creek mountain range is comprised of tribal trust lands belonging to the Confederated Tribes of the Goshute Reservation (CTGR). In the Nov./Dec. 2022 RAC and Wildlife Board meetings the CTGR voiced serious concerns about the proposed change. The Wildlife Board voted to delay the transition to Any Bull hunting on the Deep Creek unit until the 2024 hunting season. This delay was granted to allow the DWR and the GTGR more time to work through concerns and resolve issues. The DWR strives to be a good neighbor and partner and wants to have meaningful consultation and collaboration with the CTGR.

Despite ongoing efforts by both the DWR and the CTGR, there are still substantial, unresolved concerns around the conversion of this unit to Any Bull. The DWR is requesting the Wildlife Board grant additional time before conversion of the Deep Creek unit for both parties to work through these concerns and find a reasonable path forward. If additional time is allotted, the DWR will re-visit bull elk hunting status on the Deep Creek unit with the Wildlife Board at the first statewide elk plan mid-plan review. That mid-plan review is planned to occur after the 2025 hunting season.

Except otherwise listed, all species are presumed prohibited. All species not listed will require an assessment before collection, importation, or possession will be authorized.
